Terra Tech Secures Permit to Manufacture Cannabis for the Adult Use Market at Reno, Nevada Facility

Irvine, CA – April 8, 2019 - Terra Tech Corp. (TRTC) ("Terra Tech") or (the "Company"), a vertically integrated cannabis-focused agriculture company, today announced it has secured a permit to manufacture cannabis for the adult use market at its 15,000 square foot extraction facility in Reno, which is 50% owned by NuLeaf, from the State of Nevada.

Terra Tech commenced IVXX® production activities for the medical market at its Reno, Nevada facility, co-owned by NuLeaf, in the late in the third quarter of 2018. Securing this permit allows it to further increase supply of its proprietary IVXX wholesale brand to meet the significant demand for cannabis products from adult users throughout Nevada.

Chief Executive Officer, Derek Peterson, said, "Our IVXX brand of cannabis has proven itself to be popular with both the adult use and medical markets in Nevada. Securing this permit enables us to increase supply of our products to meet the demand from adult users that want to consume our premium branded cannabis by ramping production at our Reno facility. This will enable us to not only continue the rollout of our wholesale products in the State, but also increase the value of our assets in Nevada."
